## Select Committee on Ethics - Financial Disclosure

 SELECT COMMITTEE ON ETHICS

Part IIIA

**EXCEPTED INVESTMENT FUND**

■ A mutual fund, common trust fund of a bank, pension or deferred compensation plan, or any other investment fund which is:

- Widely held (i.e., has more than 100 participants or investors);
- Publicly traded (or available) or widely-diversified; and
- Held under circumstances where you don't have control over the fund's assets.

---

---

---

---

---

---

---

 SELECT COMMITTEE ON ETHICS

Part IIIA

**RETIREMENT PLANS**

■ Identify each asset held by a self-directed retirement plan.

■ A self-directed retirement plan is one that does not meet the definition of an excepted investment fund.

---

---

---

---

---

---

---

 SELECT COMMITTEE ON ETHICS

Part IIIA

**INVESTMENT CLUBS OR OTHER HOLDING ARRANGEMENTS**

■ Identify the investment club and also any underlying investment asset or property held by the club when the asset meets the reporting thresholds

- (i) you (your spouse or dependent child's) interest in the underlying asset exceeds \$1,000 in value, or
- (ii) where the underlying asset generated more than \$200 in income for you (your spouse or dependent child)
- (iii) If the investment club or holding itself meets the definition of an excepted investment fund, the information regarding the underlying assets is not reportable

---

---

---

---

---

---

---

# United States Senate

## Select Committee on Ethics - Financial Disclosure

**SELECT COMMITTEE ON ETHICS**

**Part IIIA**

**EXCEPTED TRUST**

**An excepted trust is one which:**

- Was not created by you, your spouse, or your dependent child; and
- Has holdings or sources of income of which you, your spouse, and any dependent child have no knowledge.

---

---

---

---

---

---

---

---

**SELECT COMMITTEE ON ETHICS**

**Part IIIA**

**QUALIFIED BLIND TRUST**

**A qualified blind trust is a trust which has been certified by the Senate Select Committee on Ethics, in accordance with Senate Rule 34.**

**CERTIFIED**  
By the  
Select Committee  
on Ethics

---

---

---

---

---

---

---

---

**JOE FILER**

**PART IIIA. PUBLICLY TRADED ASSETS AND UNEARNED INCOME SOURCES**

**3**

**BLOCK A**  
Identity of Publicly Traded Assets and Unearned Income Sources

Report the complete name of each publicly traded asset held by you, your spouse, or your dependent child. (See p. 3, CONTENTS OF REPORTS, Part 4 of instructions) for production of income or investment which:

(1) had a value exceeding \$1,000 at the close of the reporting period; and/or  
(2) generated over \$200 in "unearned" income during the reporting period.

Include on this PART IIIA a complete identification of each public bond, mutual fund, publicly traded partnership interest, excepted investment funds, bank accounts, excepted and qualified blind trusts, and publicly traded assets of a dependent child.

**BLOCK B**  
Valuation of Assets

At the close of reporting period. If none, or less than \$1,001, check the first column.

**BLOCK C**  
Type and Amount of Income

If "None (or less than \$200)" is checked, no other entry is needed in Block C for that item. This includes income received or accrued in the benefit of the dependent.

**Type of Income**

**Amount of Income**

Actual Amount Received if "Other" Specified

Example: (1) ABC Corp. (NYSE)

1 MOOLAH, INC. (NYSE)

2 HOME DEPOT

3 LEI GROWTH AND INCOME

4 MICROSOFT

5 FORD MOTOR

6 DAIMLER CHRYSLER

7 CIRCUIT CITY (Short Sale)

8 TARGET (Indefinite Stock Option)

9 Do not leave items (Valuation of Assets, Type of Income, Amount of Income) empty.

10 CISCO

**READ INSTRUCTIONS BEFORE MARKING BOX.**  
Exemption Test is Extremely Difficult to Meet

## Select Committee on Ethics - Financial Disclosure

 SELECT COMMITTEE ON ETHICS  
Part IIIB

**REAL PROPERTY**

- Investment property (e.g., commercial or rental real estate)
- List city or county and state
- Property that is solely recreational or personal does not have to be reported
- If a portion of property is used for a working farm, ranch, mineral excavation or other buildings for rent it must be reported

---

---

---

---

---

---

---

 SELECT COMMITTEE ON ETHICS  
Part IIIB

**PERSONAL PROPERTY**

- If not held for investment, do not report it
  - Unless: intermittent sales from personal property (antiques, art holdings) need to be reported

---

---

---

---

---

---

---

 SELECT COMMITTEE ON ETHICS  
Part IIIB

**NON-PUBLIC SECURITIES OR PARTNERSHIP INTERESTS**

- List complete name, location, and nature of business, interest, or property
- Primary trade or business must also be disclosed
- Example: Holding ownership interest in private real estate rental company that primarily owns (rents) real estate and which also buys stock in a bank, you must disclose the real estate and the stock individually

---

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |
